Galvanized Stem Wire

Crimped Carbon Steel Fill

For over 45-years, Brushes Corp. has specialized in the development and manufacturing of twisted-in wire brushes for plumbing and fitting applications. Our fitting brushes are offered in a variety of stiffness, i.d. and o.d. sizes, wire materials, construction, and handles. We also manufacture boiler and flue tube brushes from black oil-tempered wire.

We supply both standard and custom engineered brushes and can accommodate any size order. Our experience, technical support and extensive selection of bristle and stem materials enables us to design unique brushes for every application.

We offer packaging, private labeling and bar-coding services. If you are looking for ways to lower your costs or reduce inventory, call us. We offer the industry's most competitive pricing and lead-times!
